Bosanquet, Ontario

TO WHOM IT MAY CONCERN;

If there is anyone using a little common sense, they would KNOW the problems in this area require cleaning up before the Army Camp property is turned over to those people who are entitled. The handfull of people who were residing in the few shacks that were on this property when the Army expropriated this land for an Army base. There are many senior citizens in this area who c an remember this situation, and they also knew the people who resided there.

They did not include all the criminal element that has now taken the camp over. They certainly do not belong there, and the whole area is on constant alert, not knowing when one of these people will jump the fence and break into our homes or steal our cars and anything else they can get their hands on, it seems they steal anything they feel the need for, or can turn into cash.

We have seen many stolen vehicles being towed out of there, and there were a lot more they burned up. The place is a disgrace. They have no fear of the law, why should they, the O.P.P. does not interfere, so they are free to help themselves.

We have lived here 23 years, many of our neighbours have been here longer. Most of us are retirees and veterans of the Second World War. Much Canadian blood and lives were lost overseas for exactly the same reason, GREED, so now here we sit, we cannot get a price for our property because of the criminal element in the Army Camp.

When we ~~retired~~ retired, we thought we had put by enough for our retirement, but the greed causing inflation, soon depleted what we had. So now, all we can do is make sure our property is locked upo tight, and we have plenty of lighting on the outside. we also must look out for our neighbours. What a terrible way to wind up our final years, like a cat on hot bricks, and nobody seems to do anything.

Nothing is going to change as long as the criminals are there. They do n ot belong and should certainly be rounded up and returned to the United States where they came from, they are only after something for nothing at the expense of the Canadian Taxpayer.

We have never had any problem with the people in Kettle & Stony Point, and if transformation is done properly, we can all settle down and relax once more. There is no possible way all the people in the Army Camp came from the handfull of people who were there in 1940.

Please give us some consideration, use common sense and do what is right, that is all we ask.

Yours very truly,
