Justice Robert Reid,
Alternative Dispute Resolution Inc.
Toronto Ontario

Dear Sir,

We are into the second month since I first wrote to you with several questions.

You did respond stating that in the week following Jan.24/00 you would be answering these questions as fully as you could. Although you expressed interest in attending another General Meeting which is usually held in April, I did expect that in the interim you would honor your commitment to answer my queries.

Due to several members being seasonal and going south for the winter months, the executive has decided to have the general meeting in May of this year to accommodate the return of those interested in attendance. The date is not confirmed as of yet.

This however should not negate you from responding to our two previous letters to the best of your ability. I think it is crucial after all this time that you show you are committed to listening and answering third parties. There has been a very long time elapsed in which your focus has not been on any problems the residents may be having. The Municipality has been in Round Table discussions with you I understand, but not knowing what is on the agenda does make it difficult to assess if the goals of the Town reflect with any degree of accuracy, the issues most important to the constituents.

I trust that you will reply soon.
Mary-Lou LaPratte.
